## *PREFACE.*

---

This issue makes the eighteenth in the series of Brookline Blue Books.

We are grateful to our many friends and patrons for their orders and ready responses to our requests for information.

We want to remind our present and former patrons and readers that this is the only exclusive Brookline Blue Book published. We find there are some persons deceived and made to think there is another.

We issue our North Shore Blue Book July first and we include in this the names of many of our Brookline subscribers.

Hoping our Book will be found useful and convenient for reference in the many homes to which it goes we remain,

Respectfully,

EDWARD A. JONES.

April 20, 1903.

## CALL FOR CARRABASSETT MINERAL SPRING WATER.

The Carrabasset Spring Water is alkaline, gaseous and soft, and pronounced by physicians and scientific men as harmless in any quantity.

It is a clear, crystal water, and never spoils in any climate if kept from the sun. It is a fine table water. It has proved successful in many cases of fevers, bladder and kidney diseases, Bright's, Diabetes, Dropsy, Indigestion, Sour Stomach, and Dyspepsia in all its forms. Torpid Liver and Costiveness yield to the solvent nature of its natural curative properties. It is especially useful in Gravel and calcareous deposits, General Debility, and Uric Acid Diathesis. Its assimilating powers are remarkable, and large quantities may be drank, as in cases of excessive thirst and Diabetes, without the slightest ill feeling, such as would be produced after absorbing a like quantity of ordinary or many so-called mineral waters.

The farm house, which is also the post-office and telephone station, is open the year round for boarders and travellers. For further particulars address
